### 特點/Feature

- CBH鏜頭反向裝可以進行鏜孔加工
- 加工範圍 $\Phi 116-\Phi 200$
- CBH boring head loaded reverse direction can process boring machining.
- Machining range  $\Phi 116-\Phi 200$

注意：1、此单价包含鏜头、平衡块、刀片座。  
2、主轴反转。  
3、鏜孔加工时主轴正转。

Idea: 1、the unit price includes boring head, balance block, blade seat.  
2、spindle reversal.  
3、when the boring spindle rotation.
